Decision Relative to the Beneficial Endowment Matter.

RECEIVER PETITIONED FOR

Robert Ball, Hannibal D. Norton, and Solomon J. Fague Are the Complainants-Charge Gardner With Having Plunged the Assoctiaion Into Insolvency.

The committee of nine, appointed by certificate holders of the Washington Beneficial Asso-ciation, to prosecute the inquiry into the recent transfer of the association to a New York conern, apparently got little satisfaction out of the statement coming grom President Lawrence Gardner, published in THE TIMES of yesterday.

They held a meeting at noon in the office of Mr. Wolf, the chairman. The statement by Mr. Gardner was discussed, and the general feeling was that it explained nothing and made very little difference in the relations of the protesting certificate-holders. Letters from New York

ers were to be transferred. It is understood they were of a character unfavorable to the By a vote H. O. Claughton, Simon Wolf and W. J. Vice-President Howard Suggests Some Pertinent Questions for Submission to the General Managers-Strike Commission Adjourns to Meet in This City Next Month.

CHICAGO, Aug. 50.-W. F. Guion, a reporter, was witness before the strike commission to-day. He went over the incidents of the strike at Biue Island, Burnside, Fordham, and Pullman. He saw the cars burning at Burnside. He found which was three blocks away. The railroad men these men said the instructions from the Amer-

these men said the instructions from the Americae Railway Union headquarters were to drive away all persons who might be inclined to dunage property, and if they would not go, to cause their arrest. Dobs and Howard afterward asked winnes if he could help the order and cause the arrest of the men engaged in violence, but he told them he was not a detective.

Vice-President Howard, of the A. R. U., was again called to the stand. Mr. Howard denied that he had advined violence, and declared that he had always counseled moderation and denounced lawlessness. His only remarks of "incondiary" nature, he said, was the advice he had given the men to use coupling pins on A. P. A. representatives, or any other similar class of people who might endeavor to sait up trouble in the union on a basis of differences in religion. He denounced the A. P. A., and explained how emissaries of the curporations had frequently endeavored to foment dissensions in labor organizations on account of religion.

Some questions for the Managers.

SOME QUESTIONS FOR THE MANAGERS. Mr. Howard then suggested that the following questions should be put to the general managers, one of whom he supposed would take the stand this afternoon.

"Did the strikers at any time interfere to pre-rent you carrying malls if Fullman cars were not attached to the same train?"
"Could you not at all times have transported

"Could you not at all times have transported the malls without interruption if you had not insisted upon attaching Pulliana cars to the same train?

"Was your contract with the government to transport mails any less binding upon you than your contract with the Pullman Company, or was one contract in any sense made dependent upon the other?

"Did your company have a contract with the government to transport the malls?

"Was your contract dependent upon your ability to transport Pullman cars?

"Did your contract with the Pullman company provide that you should not carry the mails unless you took Pullman cars on the same train?

Commissioner Kernati did not know that the commission would have opportunity to put the

carliner personally, in business resorts and otherwise, in Washington almost daily, nevertheless, sithough he then knew that they were holders of such certificates, he at no time informed them of the design to either assign or distribute the assets of the association, and to transfer its contract with them, as aforesaid, nor did he do this until such transfer had for several days been concluded, and then only in a general and absolute way, giving no details and making no specifications thereabouts.

"In Since then the plaintiffs insve applied to said Gardner and also for the office of the said association for liberty to inspect the by laws, books, and papers of the latter in order to be informed upon a business footing as to their existing interests under said certificate of endowness for information has been refused by Gardner and also for information as to the details of the aforesaid dealings between the defendants. ALCOHOL IN THE ARTS.

Conference of Leading Drug Manufacturers with Revenue Commissioner Miller. R. A. Anthony, of E & H. T. Anthony, manufacturers of photographic chemicals and materials of New York, and James R. Davies, representing the drug and chemical trade of New York, were at the Treasury Department yesterday in the interest of a proper interpretation and execution of section 61 of the new turiff act.

and execution of section at or the new tarm set, exempting from internal revenue tax aborded used in the arts.

Mr. Anthony in an interview with Commissioner Miller recalled the fact that alcohol and ether are two of the principal raw materials in the manufacture of colledion, extensively used the manufacture of coholicin, extensively used for photographic purposes. Consequently paper coated with colloidon contilects, consequently paper to other kinds, cannot be made as cheaply as other papers by reason of the tax of about 600 per cent now imposed above the cost of manufacture. No other article of commerce, it is asserted, is taxed so heavily that a gross injustice is being done this branch of trade.

Mr. Davies contended that this unjust discrimination in tax against manufactures of chemicals had worked infinite harm to that trade, and both he and Mr. Anthour suggested to the commission that probably the best way to prevent frauds being perpetrated by small irresponsible druggless who would take advantage of the law to put upon the market tast quantities of so-called medical preparations, which, in fact, were nothing but adulterated low grade whisly, would be to require all articles in which, in fact, were nothing but adulterated low grade whisly, would be to require all articles in which, in fact, were nothing but adulterated low grade whisly, would be to require all articles in which, in fact, were nothing but adulterated low grade whisly, would be to require all articles in which, in fact, were nothing but adulterated low grade wherehouse under government supervision.

Commissioner Miller explained that the department is now carefully investigating the creation as to whether affective regulations can
